

# PRACTICAL Business Analyst (Classical)

A Business Analysis Competency development programme for budding Business Analysts to master the science & art of Business Analysis and to excel at the workplace

## **WHY ENROLL FOR OUR PROGRAMME?**

Most Business Analyst training programmes emphasise on theory & method of Business Analysis. Business Analysis is one domain, where just the knowledge of the theory & method is not enough. Successful Business Analysts must cultivate competencies and possess a thorough understanding of the tools essential to be effective in the workplace. Techaway's "Practical Business Analyst" program stands out as an interactive and workshop-oriented initiative, crafted to equip participants with the practical skills and hands-on experience necessary to thrive in the role of a Business Analyst.

- Case Studies and Role-plays for competency development
- Hands-on workshops for tools and techniques required for Business Analysis
- Faculty with practical work experience of more than 25 years
- Program Batch Size of NOT MORE THAN 20 participants
- Career Counselling Session & Placement Support
